ERP Consulting & Advisory

Successful ERP transformation begins long before implementation. Altapete Solutions helps organizations understand their current environment, identify operational gaps, define transformation objectives, and develop an ERP roadmap aligned with business priorities.

Our Consulting Services

- **ERP Strategy:** Develop a technology roadmap aligned with business objectives.
- **Business Process Assessment:** Analyze existing workflows and identify opportunities for improvement.
- **ERP Selection:** Evaluate ERP platforms based on business requirements, scalability, functionality, and strategic fit.
- **Digital Transformation Advisory:** Define a practical path toward modern, connected enterprise operations.
- **ERP Health Assessment:** Identify system, process, integration, and performance improvement opportunities.
- **Transformation Roadmap:** Prioritize initiatives and define a structured implementation journey.

ERP Implementation

ERP implementation is a business transformation initiative—not simply a technology deployment.

Altapete Solutions follows a structured implementation methodology designed to reduce risk, improve adoption, and create sustainable business value.

Implementation Lifecycle

1. **Discover** – Understand goals, processes & needs.
2. **Design** – Define the future solution & architecture.
3. **Configure** – Set up ERP to match business processes.
4. **Integrate** – Connect systems, applications & data.
5. **Migrate** – Clean, validate & transfer data.
6. **Test** – Ensure functionality, integration & performance.
7. **Deploy** – Launch the ERP with a smooth transition.
8. **Optimize** – Continuously improve performance & adoption.

Why Choose **Altapete?**

ERP transformation requires more than technical implementation. It requires a partner that understands business processes, technology, people, data, and long-term organizational goals.

One Partner. Multiple ERP Platforms.

Why Altapete?

- Enterprise Focus
- End-to-End Capabilities
- Multi-ERP Expertise
- Industry Flexibility
- Business-First Approach
- Scalable Solutions
- Long-Term Partnership

An ERP system rarely operates alone. Enterprises typically depend on CRM platforms, banking systems, eCommerce platforms, warehouses, HR applications, manufacturing systems, third-party applications, and legacy technologies. Altapete Solutions helps create a connected enterprise ecosystem.

Integration Services

- ERP-to-ERP Integration
- CRM Integration
- Banking & Financial Integrations
- eCommerce Integration
- Supply Chain Integration
- HR & Payroll Integration
- Third-Party Application Integration
- API & Middleware Integration
- Legacy System Integration
